

ANTIBACTERIAL

PRO.ANTIBAT.1

PRO.ANTIBAT.5

PRO.ANTIBAT.25

PRODUCT DESCRIPTION

Naturalcalk Antibatterico is ideal for removing mold and lichen from walls and cleaning greasy surfaces. It is used in the treatment of internal and external surfaces, including bricks, old paints, natural stone, and anywhere that requires disinfection and mold removal. It can also be used as a base coat for lime finishes and to reduce surface absorption.

FIELDS OF USE AND PRODUCT APPLICATION

Naturalcalk Antibatterico should be applied to the surfaces to be treated using a brush or spray. After 2 hours, the treated wall should be brushed with a semi-rigid brush until the dried mold is removed. Rinse with water.

To prevent the formation of mold on surfaces, it is advisable to treat them periodically, especially during cold periods.

As a deodorant, Naturalcalk Antibatterico eliminates odors without leaving stains on walls, fabrics, or other treated surfaces. It is odorless, leaving only a fresh feeling. Allow it to dry.

PRODUCT FEATURES AND BENEFITS

Naturalcalk Antibatterico is a colorless and odorless disinfectant that is non-toxic, non-dangerous, and eco-friendly.

With Naturalcalk Antibatterico, you can treat the following areas:

- As an antimould
- By brush on regular surfaces at a rate of 8 sqm/L
- As a deodorant: cover 30 sqm/L
- For disinfestation of lichens 2 sqm/L
- Supplied in 1-5-25 tank.

WARNINGS

The exclusive use of products from the Natural Calk line is strictly required in every processing phase of the Tillica Pasta system in order to maintain the system's characteristics and guarantee the desired results. The company takes sole responsibility for the product until it leaves the deposit/supplier, Arte e Mestieri SRL. However, the application, use, and processing are the exclusive responsibility of the customer or the applicator. The company reserves the right to modify the composition while keeping the characteristics naturally unchanged.
